Pokemon Company International : Pokmon Sun and Pokmon Moon: Official Strategy Guide before purchasing it in order to gage whether or not it would be worth my time, and all praised Pokmon Sun and Pokmon Moon: Official Strategy Guide:

3 of 3 people found the following review helpful. Overall good, lack of post game help disappointing but they ...By RamOverall good, lack of post game help was disappointing but they saved it for the pokedex guide. Also the alola pokedex at the end of the strategy guide used in game asset screen shots and not art which was something that personally bothered me, because always like the art. I recommend it when on sale.1 of 1 people found the following review helpful. Good for Endgame contentBy WhitecrowThis book has some good information, but could give more information on when pokemon level into the next phase and how. It includes endgame content, but advertises that the

pokedex book coming out also has end game content? Seems silly to have two books when you could make a comprehensive book instead. If I had to give it's most positive point credit, it would be that it is most useful for endgame content. Most everything else can be figured out by yourself. 0 of 0 people found the following review helpful. Great tool, lots of info. By Maddie Dame This book is huuuuge! Gives so much information, the quality of the pictures is amazing. Bought it for my niece who loves Pokemon and just started playing the games. She asks me questions all the time now she can just refer to the strategy guide if I'm not around.

The official strategy guide from Pokmon for the Pokmon Sun Pokmon Moon video games!
