Skin oils seem to be wearing away whatever was used to give large portions of the cover an otherwise nice matte finish. Some information is missing, ex.: one of the locations for Goomy? I think? Don't quite recall, I just know I had to turn to Serebii for more information than I was comfortable with. Still, it's a good quality book, and one I don't regret getting. 0 of 0 people found the following review helpful. Beautiful book extras! By Adam Beautiful book. High quality and what I would expect from a hardback collector's edition. The included poster and artwork were a nice addition. Very happy. As others have said, this only lists the Sun/Moon Alola Pokmon, but there are of course repeats from previous generations. 0 of 0 people found the following review helpful. Five Stars By L.
