## Adventure Guide: The Official Pokmon Strategy Guide:

By KAs other reviews have probably mentioned, this Pokedex doesn't have all the Pokemon in it, which is annoying considering that's why I bought it! At least the stuff it does have (post-game info, some of the Pokemon) seems complete. The font for the Pokemon information (like TMs, etc) that does exist is also in a really tiny font, and I'm not an old man! Honestly, I'd just use websites like Serebii . net (look it up) to get any information needed and skip the guide. I'd like to buy a complete guide - unfortunately, this isn't it! I like having all the Pokemon in one book that I can reference! P.S. the poster is cool. I'll probably keep it for that and the post game information.
