Charles Hertan : Power Chess for Kids: More Ways to Think Ahead and Become One of the Best Players in Your School (Volume 2) before purchasing it in order to gage whether or not it would be worth my time, and all praised Power Chess for Kids: More Ways to Think Ahead and Become One of the Best Players in Your School (Volume 2):

1 of 1 people found the following review helpful. Great SequelBy Chess dadThis book picks up where Volume 1 left

off. My son and I liked it even more than the first! The examples are great, the characters are lively as ever, and the explanations were quite clear and often humorous. Not sure what book the other reviewer was reading! Great for any kid looking to further explore the themes of volume 1. It also has a good synopsis for kids who didn't read the first book, though I'd recommend reading both. 0 of 0 people found the following review helpful. Too confusing for a child. By customer. Too confusing for a child to read and understand. My 11 year old is very good at chess so I bought this to help him get some insight to strategies. The book is too confusing for a child. 0 of 0 people found the following review helpful. improvement almost guaranteed. By Fredric E. Levison. this really works for kids

For kids who love to amaze their friends with their chess skills, Charles Hertan presents new ways to find Power Moves, winning tactics that require thinking ahead. In Volume 2, the four special teachers get a new colleague! Knelly the Knight arrives on the scene and will assist Zort (a computer from outer space), the Dinosaurs, the Power Chess Kids and the Chess Professor. Together they will help you to become a very dangerous chess player. Power Chess for Kids is the most complete, practical and fun kids guide ever on learning how to win games. Forget about studying openings and endgames, Power Moves will help you to beat your opponents in all stages of the game!

About the Author Charles Hertan is a FIDE master from Massachusetts who has been teaching kids for more than thirty years. He has written a chess book for advanced players called Forcing Chess Moves: the Key to Better Calculation which was shortlisted for the Guardian Chess Book of the Year Award and won the ChessCafe Book of the Year Award.
