PerezIt is a well illustrated and informative book of Precious Moments. You won't go wrong on buying this one. Specially if you are starting to get into Precious Moments figurines.2 of 6 people found the following review helpful. WonderfulBy A CustomerI think it is very colourful! And it is beautiful too!

Precious Moments figurines are ceramic collectables. This book includes a look at why they have become so popular worldwide.

From the Back CoverEnesco Corporation first introduced Precious Moments porcelain bisque figurines in 1978. An unprecedented phenomenon in the giftware market, the popularity of these inspirational, teardrop-eyed figurines seems to know no bounds. Today the collection numbers over 1,000 pieces, and those who love Precious Moments are numbered in the millions. The magic of the Precious Moments Collection comes to life in this beautifully illustrated book, which contains 794 color photographs and eight specially commissioned portraits of collectors. The warm and lively text by Laura C. Martin traces the history of the collection and the many lives it has touched. Through letters,

interviews, and portraits, the collectors reveal how profoundly their Precious Moments collections have touched them; their stories remind us that each moment is one to be treasured.
