Michael Burns : Prepared Uber-Advanced No-Limit Hold'em Cash Games Volume 1 before purchasing it in order to gage whether or not it would be worth my time, and all praised Prepared Uber-Advanced No-Limit Hold'em Cash Games Volume 1:

1 of 1 people found the following review helpful. What happened? By I. M. Reality The publisher 'offsuitpublishing'

has vanished. The Volumes 2 3 that are discussed in the original book were never released it seems. So what happened??0 of 1 people found the following review helpful. Good job!By Vinh DaoThanks!! Good job!!!0 of 2 people found the following review helpful. Different approachBy Mac OylerAn unusual, different approach to no limit play. You get something out of everyone's approach. I may appreciate the book more after rereading. It is somewhat thought provoking and stimulating.

No Limit Hold'em is out of the muck. Hundreds of millions are participating, but few are playing exceptionally high level Hold'em. It's poker in the big leagues, NOT for poker wannabes. This complex game is broken down into small digestible pieces of highly advanced subjects always keeping the goal of long-term profits in plain sight. This guide covers dozens of new concepts that you won't find on the internet. Learn to think like a pro by creating consistent and repeatable profitable strategies. The first volume analyzes more than 80 hands in 400 pages explaining expert plays in a simple coherent manner. It scrutinizes the game as a sum of its subtle parts. Away with the one-size-fits-all moves. Each hand is situational. You'll begin to see the layers that were previously invisible. You'll learn to exploit your opponents' thought processes, use every position to your advantage and misrepresent hands you don't have. You'll finally learn to manage your stack size and utilize fail-safe strategies. This is a serious book for serious players, but is far from dreary. The first goal of the book is to consistently increase your bankroll. The second is to become a royal pain in the ass to everyone else at the table. This isn't a school of the catch and release. Common stereotypes will be poked at-and abused. One should question everything that has been learned about playing high level Hold'em. Prepare to be awakened.
