Great presentation, some inaccuraciesBy Chuck SteakI don't know if it's me, but it seems that Prima and Bradygames are getting slack these days.This guide has a beautiful hardcover presentation with the gauntlet on the cover in a metallic finish. There are interviews with the designers as well as game artwork in the back of the guide as well, making this more than your usual game walkthrough guide.The problem is, the maps are sometimes inaccurate, and the achievements for the 360 are described no more than if you examine them on xbox live. It literally repeats the list of possible achievements, in case you somehow forgot how to access them on your dashboard. It does offer some tips for a handful of achievements, but they are of little help. The maps of the light

seeds was sometimes off, and I was better off just trying every nook and cranny in the game and hopefully the ones I could not find would be accurate in the guide. I don't know if Ubisoft games are too complex for these guide makers, but the whole point of a guide is to point out everything in the game accurately and clearly. The assassin's creed guide as well as this one somehow managed to get past the editing and went straight to the final draft. This guide still gets a good rating because of the collectible aspect, and the maps aren't as bad as assassins creed, but if you want help with the achievements you will have to go online. 0 of 0 people found the following review helpful. Collectors Edition!!!! By T. Compton Ok, while i have not used the strat guide for uses pertaining to the game itself, I do have it very visible, the cover of this guide is very well done, and is in HARDBACK, I highly recommend this if you are a collector of strategy guides as I am, for 3 dollars, this is a great addition. If you are actually needing a strat guide for this game...well then u really should consider your video game playing abilities as the game is very str8 forward, and as you are unable to die, very easy to figure out in the end. this guide was made for pure viewing pleasure. 1 of 1 people found the following review helpful. Love the quality put into it! By Robert Johnson Very impressed with the way this book is put together. Quality materials are used throughout. From the solid, tight hardcover, to the beautiful glossy pages. Pictures are numerous and well taken. Walkthrough is top notch. If your having difficulty finding all those light orbs, (I was) this is your companion. Great strategy guide, period!

Beautiful artwork, renders, and concept art of all your favorite characters and much more. Complete Prince of Persia strategy guide. Exclusive high-quality concept art print. Revealing in-depth interviews with key members of the team. A detailed behind-the-scenes look at this year's biggest blockbuster.
