Introduce puppets into your storytime programs and make some magic! You'll excite and engage your young patrons, introducing them to the joy and wonder of books, reading, and language. This guide helps you turn your favorite stories or poems into memorable puppet presentations and gives you annotations of nursery rhymes, poems, stories, folk-tales, fables, and songs that are terrific for puppet storytelling. Lowe and Matthew show you how to select and purchase puppets, develop performance techniques, store and preserve these unique tools, and integrate them with children's literature. You'll also appreciate the tips for creating your own puppets with easy-to-find materials. And

once your puppets are ready, you'll find step-by-step guidance for incorporating them into your programs. Additional resources include a guide to puppet retailers and materials distributors, a puppetbook index that matches puppets to specific book titles, and a bibliography of additional titles and tools for the novice puppeteer.

From School Library Journal Adults who are looking for a quick, unfussy way to present stories, songs, and rhymes to children will find enough material in *Puppet Magic* to launch them into a timeless art form. While not as complete or detailed as Nancy Renfro's books, Lowe and Matthew's title gives beginners just enough material and easy puppets made primarily from socks, felt, and paper plates to get them started without much of an investment of time or effort. The book is ideal for anyone who needs a puppet show "real fast," or who might want to try performing with puppets as one of the thousand other things they're called on to do daily. Photos, patterns, online resources, and a good resource list are included. Walter Minkel, Austin Public Library, TX Copyright Reed Business Information, a division of Reed Elsevier Inc.
