Tom Cole : The Preposition Book: Practice toward Mastering English Prepositions before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Preposition Book: Practice toward Mastering English Prepositions:

6 of 6 people found the following review helpful. Disappointed! The CD-ROM does not accompany this book. By Sid Bhat Reading the back cover of this book, I got the impression that the CD-ROM was included--It clearly says, "The Preposition Book is accompanied by a CD-ROM, Preposition Pinball and Other Games, which is sold separately or with this book." Turns out the CD-ROM is not sold with this book, but is a separate purchase on .com for another \$24++. Since the CD-ROM is where the essential practice and instant feedback sessions are, the book sans the CD-

ROM is but a shell. Just a quick succession of tersely stated rules and a couple of cursory exercises that follow. It is also purported to be an instruction manual for the CD-ROM, which you will have to purchase separately, of course. The book itself is strictly OK. I take away stars for disingenuous marketing, and for nickel and diming the consumer. I expected better sale ethics from a public university, like the publisher of this book....0 of 0 people found the following review helpful. Five StarsBy peipeixugood book0 of 0 people found the following review helpful. Five StarsBy Nabeel D. It is so nice to have such a book. Thanks to Tom Cole and to

The Preposition Book is intended as a thorough guide and workbook to address students' questions and misconceptions regarding English prepositions and improve their ability to use prepositions fluently. The book comprehensively covers prepositions and also provides opportunities to practice many other essential points of English grammar and usage practice. The Preposition Book is organized by level of difficulty but was written for intermediate-level students. Many exercises are included within each chapter, and Putting It Together and Expansion Exercises are designed to give students even more opportunity to practice. A Comprehensive Test appears at the end of each chapter.

About the Author Tom Cole teaches grammar and writing at Arizona State University.
