the following review helpful. The Puzzled Archer--Bull's Eye!By N HamiltonTom Dorigatti's book, The Puzzled Archer, is not only interesting and informative, but also fun! I enjoyed doing the puzzles, and I also had a great time reading about the history of the 1938 film of Robin Hood. He combines his passions for archery, teaching, history and culture in an informative, enjoyable book that is accessible and entertaining for us non-archery buffs and will deepen appreciation for those who know the sport. His style of writing is inviting, and the well-researched information is engaging. Puzzle lovers will be challenged by the variety and depth of knowledge required. For teachers looking to motivate students to read, Dorigatti used this resource with proven success, and offers his expert advice in support. It is an excellent resource for integrated units on P.E., Language, History, Geography and Social Studies, and clues and keys are provided! Thanks, Tom, for a terrific book and a lovely gift idea! I gave one to my sister, Terry, and she is equally impressed! We both look forward to more books by this author. Bull's eye!1 of 1 people found the following review helpful. The Puzzled ArcherBy Jean SummersBeing an amateur archer, this book is great for me to learn the terminology and history of bow and arrow. The puzzles make it fun and exciting to learn all about the archery game and then put you to the test. It's an inovative way to teach new archers with word games and puzzles. Great job Tom.
