**Fabio Prata : The Quick Brown Fox Jumps Over the Lazy Dog** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Quick Brown Fox Jumps Over the Lazy Dog:

1 of 1 people found the following review helpful. Not what I expectedBy SkimThe card only displays the letter A in a large font size, and then the rest of the sentence in a much smaller size below. They name the font family on the same side, so there's no guessing what the font is! Also, the quality of the paper stock is very cheap. I purchased these as gifts for friends, but I decided not to give them out.0 of 0 people found the following review helpful. Great Service but the product was underwhelmingBy Life of the PartyQuality product, excellent service, timely delivery. Just not too impressed with the fonts in this collection. I hope they consider doing extension packets (like cards against humanity). I WANT MORE FONTS!! :D1 of 1 people found the following review helpful. Cute little setBy LindseyVery cute typography matching game, but I hope you have an imagination because there were no given rules included with the box. The box, itself, is also extremely tight and a little hard to open. But those are nit-picky things. I'm going to be a TA for a typography class in the fall, and I think these will be just perfect to get new design students excited.

A typeface memory game. With twenty-five pairs of cards, each presenting a different type family, this is a very stylish and interesting typographic concentration game. The kit includes a typographical glossary with the main terms used in typography as well as a text about the evolution of type design, locating in history each one of the fonts used in

the game.
