I was a new player 2 years ago, and it was difficult to figure out and understand how to be a cool player. It's a big shame I didn't have this book, cuz it's wonderful helper. Some tricks and strategies I guessed by myself, but there is a lot advices for me I didn't know before. I highly recommended this cool resource for all fan of this game.0 of 0 people found the following review helpful. Interesting, easy for beginners!By ElenaI don' like this game, but my daghter loves it. And for speaking the "same language" I try to be aware of her hobbies. I read this book not so quickly as usual, but it was really inetersting! I liked that this book was written as secrets, so been allocated the most basic aspects of the game. Thanks Author!0 of 0 people found the following review helpful. Walks You Through Step by StepBy ZLI just started playing Minecraft and this guide is amazing!
