**Nancy MacDonnell : The Shoe Book (Classics)** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Shoe Book (Classics):

1 of 1 people found the following review helpful. Was OkayBy Lnzeel got this for a friend who literally has a "shoe room" where she displays all her shoes on shelves. She was excited about it, but not sure it was worth \$36. I was expecting it to look like a fashion magazine/book on the inside (think Vogue), but it looked more like a sad National Geographic version of a shoe book. It wasn't terrible, but just not what I had expected.0 of 0 people found the following review helpful. Five StarsBy hugh@jago.toAs Advertised0 of 0 people found the following review helpful.

Shoes make a Peron smile. By j knode The book arrive just fine. It was sealed in clear wrapped. Thus ensuring me that it as a new book. It is to be a gift to my "shoe loving" daughter for Christmas.

For centuries shoes have served as a form of expression that communicates to the world who we are or who we want to be. Following on the heels of the success of The T-Shirt Book, The Leather Book, The Bikini Book, and The Trench Book from Assoulines Anthology Collection, The Shoe Book explores the history and technologies that have shaped the designs and styles that continue to evolve. With contributions by Manolo Blahnik, Bruno Frisoni, Christian Louboutin, and Sarah Jessica Parker, The Shoe Book is the most definitive and visually compelling volume published on footwear to date.
