Lyev Polugayevsky : The Sicilian Labyrinth, Vol. 1 (Pergamon Russian Chess Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Sicilian Labyrinth, Vol. 1 (Pergamon Russian Chess Series):

2 of 4 people found the following review helpful. Sicilian LabyrinthBy StephenThe book is good for those who are interested in Sicilian defense because its help you in clearing your doubt.3 of 3 people found the following review helpful. It is excellent. While I do not recall that many specifics ...By David JonesI read this book many many years ago, cover to cover. It is excellent. While I do not recall that many specifics I can tell you that this book is not a theory book, but rather a middle game book which teaches the most important themes regarding the Sicilian Defense. There are sections on positional ideas, typical endgames, important squares, and so on.Nowadays there are tons of books with titles like "Get Better at Chess" or "How to Improve" or stuff like that. Those titles don't make sense because that's not an actual topic, so the book ends up wasting your time, drifting from one idea to another. You end up confused, thinking you learned, but you didn't. "The Sicilian Labyrinth" is very different because there is a very clear topic and when you finish reading this book you actually have some very concrete knowledge to apply to your games. I wish there were more books like this.I would sincerely recommend this book to anyone.
