**From Brand: BIS Publishers : The Stewardess Game** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Stewardess Game:

This is a funny version of the classic family card game in which players collect sets of four cards by exchanging cards with other players. This version covers topics of the world of aviation. Collect four stewardesses, planes, food items,

stewardess accessories, pilot gear, items you will find in a stewardess bag, and more. Lots of fun at ten thousand feet, while waiting at airports or at home. Provides hours of playing pleasure and a humorous insiders look into the glamorous world of stewardesses. Maybe your flight attendant will want in on the game!
