**Orfhlaith N Bhriain : The Terminology of Irish Dance (Irish Dance Series)** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Terminology of Irish Dance (Irish Dance Series):

0 of 0 people found the following review helpful. Its difficult to find good books on Irish dance in generalBy alwaysastudentIts difficult to find good books on Irish dance in general. I was hoping this might contain more information than what was actually in it.0 of 0 people found the following review helpful. I got this mostly because I was curious - I've ...By LibraryRoseI got this mostly because I was curious - I've heard various terms used to describe moves in Irish dance over the last 3 decades. This dictionary style book seems to include most of them. I was just a bit surprised because I thought there would be more discussion of the efforts to create a uniform way of describing the

movements. Perhaps this is it.0 of 0 people found the following review helpful. helpfulBy A. D. FallonThis book is a very helpful book if you are an Irish dancer, have one in the family, or are interested in Irish dance. it is small enough that you can take it with you!

An invaluable reference work with terms in English and Gaelic, this concise glossary of Irish dance terms is intended for the active Irish dancer and teacher as well as the researcher. Terms cover areas such as dances, dance steps, and techniques; social dance; competitive dance; and historical contexts.

The Terminology of Irish Dance will be an invaluable and useful reference book for Irish dancers, teachers, and others who are interested in knowing Irish dance terminology in Gaelic as well as in English. It will undoubtedly lend itself to international usage by the Irish dance community.Catherine Foley, the Irish World Academy of Music and Dance, University of Limerick
