Collins UK : The Times Jumbo Cryptic Crossword Book 9 before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Times Jumbo Cryptic Crossword Book 9:

There are too many lakes, counties, and other geographic areas, and historical and political personages, of which an American is unaware. I imagine that it would be comparable to expect a non-American, in cryptic fashion, to know the names of mayors of our cities, or some of our smaller lakes. If you are better at British geography and such than I am, these might be for you. I could not handle them. 4 of 4 people found the following review helpful. Great challenge! By Helena Karter 8/10. Not for beginners! If you are an advanced cryptic crossword solver, then this is for you. Challenging, and absorbing, puzzles which will give hours of pleasure. I am a cryptic crossword addict and it's always difficult to find challenging puzzles which are rewarding and interesting to solve. The "Times Jumbo" series is excellent for people in this category.

Loving it!!!! 2 of 2 people found the following review helpful. challenging! By Puzzlerit took me several years to understand how to do cryptics, and have spent the last few years addicted to them. i knew when i got this book that it would be a challenge -- and it is. it's slow for me, but it's taking me to the next level. not for the faint of heart, but definitely has its place.
