The Times Mind Games : The Times Killer Su Doku 5 (Bk. 5) before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Times Killer Su Doku 5 (Bk. 5):

2 of 2 people found the following review helpful. great fun By Roy Levow Killer Su Doku is challenging and great fun. Well constructed puzzles. The key is the arithmetic combinations. The table of combinations is a nice, helpful feature. Interestingly, none of the puzzles require advanced sudoku techniques. None the less, the puzzles can be quite

challenging. 1 of 1 people found the following review helpful. A great way to exercise the brain! By smt This book has a wonderful mixture of Killer SuDoku's... from ones that you can do in just a few minutes, to ones that will take you more than an hour or two. 1 of 1 people found the following review helpful. Not enough... By Linda Frypractice. I'm a casual Killer Sudoku fan not a hard core mathematician. I wanted a less "immediately intense" book. Disappointed.

This fifth and toughest addition to the successful Times Killer Su Doku series will test your skills to the limit, adding the challenge of arithmetic and taking Su Doku to a new and even deadlier level of difficulty. The puzzles use the same 9x9 grid as Su Doku but with an added mathematical challenge. The aim is not only to complete every row, column and cube so that it contains the digits 1-9, it is also necessary to ensure that the outlined cubes add up to the same number. With 150 new Tough and Deadly Killer Su Doku puzzles, there is no chance to ease yourself in with easy puzzles. For those who like to live dangerously and push beyond their mental comfort zone, steel yourself for The Times' toughest collection yet.
