but failed utterly. I am sadly disappointed. Whereas I could have laughed about it with my kids, I must censor every other page such that I gave up and tossed the book in the trash. The author could have left out about 20% of the crap and had something that is fun for all ages and doesn't end up insulting Chuck. I believe this reflects the work of an immature and short-sighted author who has permanently burned his bridges Chuck Norris fans. How this became a NY Times Bestseller is beyond my comprehension. 0 of 0 people found the following review helpful. if your expecting this to be a gag gift or funny gift its great By Kyle Commons I read the negative reviews before buying this and i disagree with all of them that werent shipping related. yeah the book has some swear words but i mean come on. nothing your child wont hear at school. lot of funnny "facts" that will make you smile and a few that will make you laugh as well. was a good small gift filler for my brother. over 400 clever facts that someone made up but would be fun to look through. a solid gift for anybody whos a fan of some of the chuck norris facts 0 of 0 people found the following review helpful. Funny! By Anne I purchased this book for my husband several years ago, and it was the hit of the day. everyone that picked up the book found some quote they just had to read out loud to everyone. We recently had a white elephant exchange at work, and this was one of the gifts. Same reaction from everyone!! Please note that some of the 'truths' are for adults only!!

The lowdown on the toughest, sexiest, and bearded man to ever stalk the earth Since its emergence from the bowels of the internet, the Chuck Norris Fact has roundhouse kicked its way into the worlds consciousness with all the vim and verve of its namesake. Singing the praises of his unequaled toughness, his mighty kicking feet, his indestructible beard, his frightening virility, and his ability to stop time by thinking about pineapples, The Truth About Chuck Norris is the one book brave enough to go behind the beard and reveal the real Chuck. Ian Spector, webmaster of the site which started the meme and survivor of a real-life encounter with Chuck himself, has selected the 400 most kick-ass facts from his library of thousands, as well as illustrations as awesome as the man himself. This death-defying volume includes such awe-inspiring observations as: A cobra once bit Chuck Norriss leg. After five days of excruciating pain, the cobra died. Chuck Norris can charge a cell phone by rubbing it against his beard. When an episode of Walker, Texas Ranger aired in France, the French surrendered to Chuck Norris just to be on the safe side. Chuck Norris was the first person to tame a dinosaur. Chuck Norris once visited The Virgin Islands. Afterward, they were renamed The Islands. Every piece of furniture in Chuck Norriss house is a Total Gym. A must-have paean to the archetypical American male and a bible of all things Chuck, The Truth About Chuck Norris is easily the most important book of all time. AN UNAUTHORIZED PARODY
