Nigel Davies : The Veresov: Surprise Your Oponents with the Tricky 2 Nc3! before purchasing it in order to gage whether or not it would be worth my time, and all praised The Veresov: Surprise Your Oponents with the Tricky 2 Nc3!:

3 of 3 people found the following review helpful. A Welcome Addition to the Queen's Pawn OpeningBy Peter SimpsonThe Veresov Opening provides a very good addition to the library of all competition chess players. The opening provides a welcome change to the well-trodden Queen's Gambit lines and Indian Defences.Specific variations

are easy to find as the chapter construction has been well thought out. The typeface is easy on the eye and the paper quality is very good. Recommended. 0 of 0 people found the following review helpful. An opening I start my students out on as you ... By Larry Ball An opening I start my students out on as you can expand to other opening such as the Colle, QGD. 1 of 3 people found the following review helpful. Great Veresov coverage. By Courtney Really the sharpest 1.d4 deviation. Well written. Just a patzers opinion, but It can transposes to the french in some cases.

The Veresov is a surprisingly tricky system that, in the right hands, can be a powerful attacking weapon. White forgoes the normal queen's pawn opening ideas in favor of speedy development of the queenside pieces. One advantage of this underrated line is that players with the black pieces are less likely to be familiar with all the subtleties here than in a more mainstream opening. In this book, Grandmaster Nigel Davies arms the reader with an all-in-one repertoire with the white pieces, with the Veresov being the central line. Davies delves into the secrets of the opening, explaining both the tactical and positional ideas, and highlighting the main plans for both sides. *An aggressive opening repertoire for White* Ideal for club and tournament players *Full explanation of the latest theory

From the Back Cover Looking for a new opening? The Veresov could be the one for you! It's a surprisingly tricky system that, in the right hands, can be forged into a powerful attacking weapon. White forgoes the normal queen's pawn opening ideas in favor of speedy development of the queenside pieces. One advantage of this underrated line is that players with the black pieces are less likely to be familiar with all the subtleties here than in a more mainstream opening. In this book, Grandmaster Nigel Davies arms the reader with a complete repertoire with the white pieces, with the Veresov being the central line. Davies delves into the secrets of the opening, explaining tactical and positional ideas, and highlighting the main plans for both sides. The Veresov is an aggressive opening repertoire for White; is ideal for club and tournament players; provides a full explanation of the latest theory
