Natalia Price-Cabrera : The Wallpaper Coloring Book before purchasing it in order to gage whether or not it would be worth my time, and all praised The Wallpaper Coloring Book:

1 of 1 people found the following review helpful. Brilliant design and a little education included.By Babs VThis is the best designed and thought out "coloring book" ever. I love the juxtaposition of the interiors printed in color over the wallpapers. It even gives you the history of wall paper styles as well as color swatches of the popular hues of the era. Sample areas to experiment with colors are included.I admit to some disappointment when I saw that the paper was printed on both sides. This all too often means that there will be bleed through. Not so! The paper is fantastic and does not bleed through with any of the markers I've tried.3 of 3 people found the following review helpful. LOVE it! A very unusual and VERY cool coloring book.By Blonde Woman StampingThis is a really cool, fun book. Very creative and unusual the way they place wallpaper to color from different design eras. Nice quality paper and quality print production. LOVE it.1 of 1 people found the following review helpful. love every moment coloring all the beautiful wallpapersBy MD35So artistically rendered, love every moment coloring all the beautiful wallpapers. Enjoyable indeed, never a dull moment with this book. Highly recommended if you are into wallpapering art :)
