Super fun!By A MaherMy 10 year old daughter asked for this and she

absolutely loved doing it.0 of 0 people found the following review helpful. Five StarsBy Chris FarsonWas a Gift

London like you've never seen it in an expandable dot-to-dot puzzle! Stretch out the city and connect the dots from end to end. Color-coded numbers help you keep track of your position, and you'll build concentration and focusing skills as the lines build depth and shading. When you're finished, you'll have a unique piece of art to display on your wall!

About the AuthorAbi Daker specializes in creating unique, hand rendered artwork for her clients. Her attention to detail and strong drawing technique means that her work is ideally suited to creating illustrated maps, panoramic cityscapes and perspective drawings. Previous commissions have included large scale graphics for vinyl wall applications and window displays, a series of wine labels, and a variety of editorial and literary projects.
