Harrifan99@webtv.netI would just like to say that of all the books I've read on the Beatles this is the most interesting of all. Me being a young fan of only 17 is intrigued by the poliical views and social views of the fab four. This book

not only shows their serious side, but it also shows their witty sense of humor. I recommend this book to any fab-4 fan who would like to have a good laugh and insight into these great musicians in history. Peace! 8-)0 of 2 people found the following review helpful. He has got a way with words and organization I have yet to see from any other Beatles historian or pop expert.
