By Jan Porterfield I'm an intermediate player with around 200 master points, and this is the best book I've ever read on card play. Mr. Lawrence gives tips on both declarer and defensive play. It's well written and well organized. He presents the problems with only the information that you have available from the bidding, from your hand, and from the

exposed dummy (assuming dummy has come down.). This requires the reader to think the problem through before seeing all four hands. To me this book is perfect for an intermediate player: not too easy and not too difficult. Just right! 2 of 2 people found the following review helpful. The information combined with his writing style makes for interesting reading. I am rereading different sections and picking up tips all the time..0 of 0 people found the following review helpful. great bookBy NickMike's writing is very good. The content is great (a bit tough for me to understand, but I am working on it ...)As an a good 'Intermediate' player this is exactly what I need to take my game to the next level...

20 years ago, Mike Lawrence published a series of short pamphlets for intermediate players with advice on various aspects of bidding and cardplay. Long unavailable, this material has now been revised, updated, and republished in three anthology volumes, each comprised of about 10 of the original booklets. The topics here comprise: Defense (including opening leads, signaling and third hand play) and declarer play (including endplays, simple squeezes, loser on loser plays, and timing). There is also a general discussion of the mistakes we all make in cardplay but need to avoid. Lawrence is acknowledged as one of the two or three best writers in the world for intermediate players, and there will be a ready audience for this series in its new format.

About the AuthorMike Lawrence has edited the Storey title Step-by-Step Outdoor Stonework. He has also edited Step-by-Step Brickwork and Play Equipment for Kids, which are now out of print.
