David Hodgson, Michael Owen : Tom Clancy's Ghost Recon Wildlands: Prima Official Guide before purchasing it in order to gage whether or not it would be worth my time, and all praised Tom Clancy's Ghost Recon Wildlands: Prima Official Guide:

3 of 4 people found the following review helpful. Basic but goodBy ReadingWritingThis guide book is thorough when

it comes to the maps of Bolivia and its provinces, a listing of guns, and organizing of missions according to areas of influence, security etc (the bad guys' hierarchy). The mission sections are detailed with enemies positions so it is like having a drone assisting you with marking. It also tells entry points into enemy bases. -- There are some things that I wish the book had: I wish the skill tree was detailed out more specifically about what each skill does. The book does list these things but it's the same generic explanation as the game. For example, the Epic Skill of explosion radius indicates (in the game menu) that you have a wider blast radius; but the video clip shows possibly a mortar strike, I can't tell; and my frag grenade explosions don't seem any bigger. So I decided to consult the book but it doesn't explain it any better. I'm not reducing any stars for this lack though, because the book is still helpful. And the digital version included as a code for online use is very useful. I do wish Prima had an app; that would be convenient. 0 of 0 people found the following review helpful. Definitely worth every penny! By JDH Has every secret you could need or want help on for this game. Pick this guide up, it's got more information than you thought you could use for Wildlands! 0 of 0 people found the following review helpful. Four Stars By Eugene F. Cassidy good details but no help in flying planes!!!

Prepare for the ultimate mission with this massive 590-page tome. The Ghost Recon Wildlands Standard Edition Guide from Prima Games provides everything you need to survive the hostile world of the Santa Blanca cartel.
