I have already completed it an few times before ordering it but needed it to help me find all of the secrets. I used it for the legend version on the ps3 trilogy series and it worked. Only this is is that it doesn't fully described where to find the secrets so I had to make an few more trips back to previous levels to find what I missed. Other than that it's great.Plus in the special stuff, there's an bonus that veteran tomb raider players with fathom interest in. Theres an look back on all the previous games in the series leading up to legend. Plus some extra stuf you may not have known about TRII recommend this 100%2 of 2 people found the following review helpful. Beautiful Graphics, Good Info, but....By Sunny SkiesThis is a gorgeous guide with full color pages, big detailed maps and lots of

information. The first 24 pages are just instructions on Lara's moves. The book is beautiful with great photos of the action (wish they were a little bigger on some pages). This was the only Guide I found for the Legend game. It is also VERY text heavy and requires a lot of reading. This is the first Guide I've had by Piggyback, most of my guides are Prima and Bradygames. Nice sophisticated layout and you can tell they spent a lot of time, money and effort in the design of the book. My only quibble is the amount of text in the book. It would be great if the sentences and instructions were shortened. You could then increase the text size making it easier to read. For example, on page 55 there is a full paragraph (80 words) on "Shooting from Distance." I think it could have been summed up with half the words, such as: "If using standard automatic aim you are not likely to hit distant targets (targeting cursor will be gray). Switch to Manual Aim and you can shoot longer distance with greater accuracy. Manual aim is best used with non-moving targets." Beautiful, well organized, thorough info. I'm floored by the seller being able to keep his stock in such perfect shape. Ordered on 12/27, arrived 1/3 in a box that looked a little worn, but had the cellophane peanuts, air cushion bags and padded cellophane wrap. I have the Tomb Raider Trilogy HD Collection and already have the guide to TR: Anniversary. That guide lists the artifacts and relics as you encounter them in the walkthrough, and this guide puts them at the back, but I could just flag it. Still worth mentioning from a publisher's angle. But certainly delivered on the shipping. I would certainly use them again if needed.

The Legend Uncovered Highlighted references lead to the 49-page Extras chapter, which not only explains how to collect each Gold, Silver, and Bronze reward, but also reveals every single unlockable feature in Tomb Raider: Legend. Back cover foldout features multiformat control instructions and a map legend for easy reference. Piggyback's signature three-level tab system facilitates easy access to all sections of the guide, such as the illuminating How to Play chapter, individual level walkthroughs, the Secrets section, and the revealing Behind the Scenes interview feature. Concept art, sketches, renders, and illustrative hi-res screenshots make every page an individual and visually rich experience. Authoritative, all-encompassing walkthrough offers step-by-step guidance, plus advanced strategies and tried-and-tested techniques refined over months of dedicated play. Dozens of detailed annotated maps provide an at-a-glance guide to every locale Lara visits. All maps feature key information for each area, including checkpoints, reward locations, and the ideal route for Lara to follow.
