2 of 2 people found the following review helpful. good guide!By Matt S.This book had excellent walk-thrus! The maps were a little confusing and a little unclear were each gps cache was, relics, and all the other collectibles were it multi height levels. But, if you read the walk thru they make it easy to find everything.Excellent artwork, chracter bios, and detailed walk-thrus make this a must have. Especially if you want to find every little collectible and need help getting achievements/trophies.this book also is accurate for the tomb raider:definitive edition for xbox one or ps4. Cause I bought it for ps4 and im 88% done with the game and everything was accurate.0 of 0 people found the following review helpful.
